TERMS & CONDITIONS OF SALE

1. DEFINITIONS

In these terms and conditions the following words shall have the following meanings:-

'The Company' shall mean Garo Electric Ltd and its successors in Title. 'The Customer' shall mean the person, firm or company offering to purchase goods from the Company and its successors in Title. 'Goods' shall mean the articles and services which are the subject matter of the contract between the Company and the Customer.

2. GENERAL

All business undertaken by the Company is undertaken on the terms and conditions herein contained and any variations will only be binding on the parties hereto if such variation is in writing and signed on behalf of the Company. Any order placed by a customer is deemed to be upon the terms and conditions herein contained.

3. SETTLEMENT TERMS

All items are strictly nett and due for payment 30 days after date of the invoice unless otherwise specified in writing by the Company. The Customer shall not be entitled to make any deductions whether by reason of set-off or for any other reason.

4. PRICES – EXCLUSIVE OF V.A.T.

All quotations are given at current prices, but are subject to alterations without notice in accordance with prices ruling at time of delivery. The Company shall be entitled to recover from the Customer by way of addition to prices, such amounts which the Company may become liable to pay in respect of Value Added Tax or other legally imposed Tax in relation to the goods, also currency and other Surcharges will be charged, where applicable, at the rate ruling at date of dispatch.

5. CARRIAGE

The Company normally makes no charge for delivery from its warehouse within the usual van delivery area when delivered by its vehicles, but reserves the right to charge carriage on deliveries by whatever means of transport outside such usual delivery areas. Where the goods are specially ordered from manufacturers, the Company reserves the right to pass on any carriage and customs clearance charges as may arise.

6. GUARANTEE

The Company gives no guarantee or warranty whether expressed or implied in relation to the Goods but the Company shall do everything within its power to protect the Customers interests and to that extent shall assign to the Customer the benefit of such guarantee or warranty (if any) as may be given by the manufacturers in relation to the Goods. The Company does not accept liability for any consequential damage howsoever arising from the purchase by the Customer of the Goods whether the same may arise out of any use of the Goods or the installation of the same.

7. DELIVERY DATES

Whilst the Company shall always do its best to comply with a date quoted for delivery of goods it accepts no responsibility for loss or damage arising from failure to comply.

8. RETURNS

Goods correctly supplied may not be returned without the Company's agreement in writing. Goods so returned must be consigned Carriage Paid and accompanied by a Packing Note stating the Company's Delivery Note Number. The Company reserves the right to make a re-stocking charge. Goods will be accepted only if returned in perfect condition and in unopened and perfect packaging. A clear and authorised signature must be obtained from the Company.

8.(i) CLAIMS

(a) Any claim relating to goods delivered under this contract shall be notified to the Company in writing within seven (7) days from the date on which the said goods are received by the Customer or his agent and the Customer shall afford the Company reasonable facilities for examining the goods before they have been disposed of, or in any way altered. All goods damaged in transit and accepted in that condition by the Customer shall not be the subject of any claim hereunder.

(b) Any claim or claims in respect of goods delivered under this contract shall not be grounds for withholding payment of accounts and shall not give any right of set-off against payment due to the Company.

(c) No claim for damages to or shortages of goods during transit will be considered unless the Company and the carriers are advised in writing within seven (7) days of delivery of goods and no claim for non-delivery will be considered unless the Company and the carriers are advised within ten (10) days from date of dispatch of goods.

9. PACKING AND TRANSIT

Goods received damaged should be signed for as 'Damaged', otherwise claims in this regard cannot be submitted. Customers are asked to note the prescribed periods for notification of damage to or shortage and non-delivery of goods and the submission of claims in respect thereof. The Company shall not be liable for any loss resulting from Customers' failure to comply with the requirements of the Railway Executive, Haulage Companies and Post Regulations and the Customer undertakes to indemnify the Company against such loss (if any).

10. ORDERS

Written confirmation of telephone orders should be clearly marked as such, otherwise the Company cannot be responsible should the order be duplicated. The Company reserves the right to refuse any order placed, or to refuse cancellation of any order, or to suspend delivery of any order from time to time, if the account is in arrears.

11. WAIVER

A waiver by the Company at any term or condition shall not constitute a general waiver of such term or condition.

12. OWNERSHIP

(a) The property in the goods shall not be deemed to have passed to the Customer until the goods and any debts owing to the Company whether arising from this contract or otherwise have been paid for and discharged in full.

(b) In the meantime the goods shall remain the sole property of the Company and the Customer shall be bailee thereof.

(c) If the Customer fails to pay any sums due in accordance with the terms of this agreement the Company may after giving seven days notice in writing to the Customer take possession of the goods and may for that purpose, by himself his servants or agents, enter upon any land or premises on or in which the goods or any part of them are believed by the Company to be situated.

(d) The Customer agrees not to sell, assign, sub-let or otherwise part with the possession of the goods until the property in the goods passes to the Customer in accordance with the provisions of paragraphs (a) and (b)

(e) The risk of any loss or damage to or deterioration of the goods from whatever cause shall be borne by the Customer from when the Customer, his servants, licensees or agents receive possession of the goods

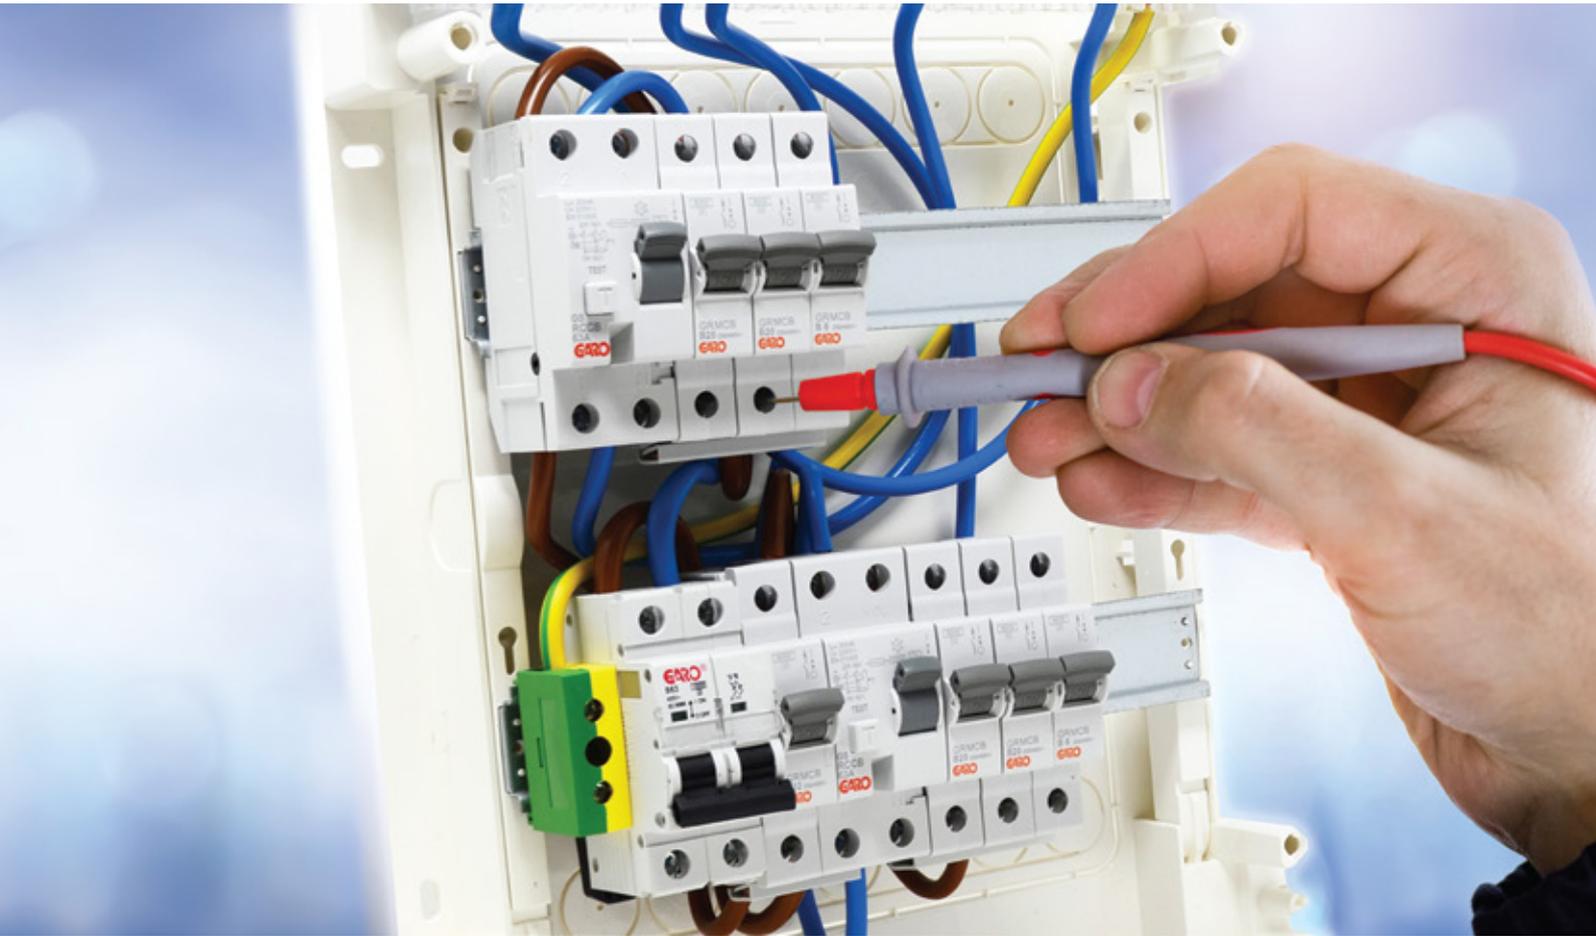

(f) If payment is overdue and not discharged, the Company may without prejudice to any of its rights and remedies and with due warning to the Customer by registered mail, recover and resell any or all such goods and may enter upon the Customer's premises for that purpose. Recovery costs will become the liability of the Customer and shall include all labour, tools, plant hire and all other relevant charges-costs.

13. CHOICE OF LAW

These conditions and the contract shall be subject to and construed in accordance with the laws of the Republic of Ireland. The Customer submits to the jurisdiction of the Irish Courts of Law.

HIGH CURRENT MCB

RESIDUAL CURRENT CIRCUIT BREAKERS

GARO's range of RCCBs are **10kA, Type A or Type B** and are tested and certified to standard EN 61008. The range can be fed from the TOP or BOTTOM. On each 2-Pole 10kA device it is possible to connect the neutral conductor on the right or left side. Protection to IP20. Auxiliary Contact see previous page.

CONSUMER UNITS - Surface Metal IP41 BS EN60439-3

Exclusive design for surface mounting. The housing is manufactured in metal and is also fitted with a door. Each unit is supplied with earth and neutral blocks, additional blocks can be fitted on request.

The enclosures are manufactured from steel. Applicable standard is EN60439-3 for a rated current of 80A at 400Volts. All GARO consumer units are assembled in our manufacturing facility specialising in quick turnaround on bespoke orders. Amendment 3 compliant

Full CAD design service available.

ARGENTA METAL ENCLOSURES IP65

The ARGENTA Series comprises a group of metal enclosures suitable for housing switchgear, controlgear and other equipment used in the supply and distribution of electricity.

The enclosures are made with high quality materials in cold-rolled steel plate of up to 2mm thick and coated with RAL 7035 hardened epoxy-polyester paint.

Metal Cabinets * All cabinets complete with mounting plate

INSPECTION WINDOWS PLASTIC - IP54

Windows are of compact (robust) design and are made of shock-resistant polycarbonate. Ideally suited for mounting by panel builder our range of hinged windows are designed to suit 4 - 18 modules (17.5mm). Windows are hinged to open 180° with holder included for holding window open when required.

Mounting frame made of shock-resistant polycarbonate with integrated gasket for flange mounting. All metal parts are corrosion-resistant. Integrated free position for lead seal.

PLASTIC ENCLOSURES

Our range of distribution enclosures come with transparent reversible doors which can be sealed.

They are made from halogen free long-lasting plastic material and are equipped with dust caps, for wall mounting screws, and 1-4 quick locking secured screws.

Enclosures have supports for fixing mounting plates. Cable entries are metric.

QC24 - 24KW DC RAPID EV CHARGING STATION

- Charges EV cars in less than 1 hour (typically)
- One charging output, either CCS Combo or CHAdeMO
- Compact design for fast & economic installation
- Maintenance free cooling system without air filter
- Compatible with all AC networks, 1-Phase & 3-Phase
- Robust design for outdoor use (IP 55 / IK 10)
- Dual Modem for separate operation & maintenance activities
- OCPP1.6 compliant for Smart Charging
- Front panel & user menu are customisable
- Wall pedestal mounted

Main Applications:

- Car Dealerships
- Service Centres
- Enterprise fleet
- Utility vehicle fleet

QC50 - 50KW DC RAPID EV CHARGING STATION

Quickly recharges the battery from 20% to 80% on most electric car batteries in just 20 minutes

- Premium solution for public charging environments
- 360° Lighting strip allows users to see the units charging status
- Strong and corrosion resistant metal cover
- Simple Touch Screen
- Easy to use, reliable & durable
- Full Control with RFID
- Customisable with your branding
- 1 x CHAdeMO Tethered Lead, 1 x CCS Tethered Lead
- OCPP1.6 compliant for Smart Charging
- Weight: 280 kg
- Mounted: Floor
- Dimensions: 1,955 mm[H] x 600 mm[W] x 540 mm[D]

Main Applications

- Service Stations
- Shopping Centres

BACK OFFICE SOLUTIONS

G-CLOUD SMART CHARGING & MONITORING SOFTWARE

When you want full control over all Electric Vehicle Charging in apartment buildings, workplaces and beyond...

G-Cloud is GARO's proprietary web-based measurement collection service.

G-Cloud offers a clear charge monitoring solution, RFID management, information on energy consumption, user and period statistics, reports and payment data for GARO charge points.

DIVIDED USER STATISTICS - Each user receives an RFID tag that allows access to the nominated chargers.

For the user, there is access to statistics on electricity consumption for their own electric car as well as the opportunity to manage their tags.

VALUE ENERGY MONITORING - For the property owner, G-Cloud's measurement values create a specified basis that allows you to divide the payment between individual users. In addition, the energy monitoring of each charger, user and period provides valuable data for the evaluation of each charging point's use rate and location.

G-Cloud can be connected to both new or existing charging systems with GARO charging points GLBDC & GTBDC. Please note this is a non OCPP product, G-Cloud has been developed exclusively for GARO's EV Charging range.

Talk to our EV experts to learn more and to arrange a closer look at G-Cloud!

OCPP SOFTWARE SOLUTION

What is OCPP?

OCPP stands for Open Charge Point Protocol. This protocol allows charge points (hardware) and charge point software to talk to each other. Some companies use proprietary programming languages that can only communicate between their own charging stations. This will NOT allow them to talk to other companies charge points.

Why OCPP?

A major advantage of OCPP is that you're not locked into one vendor/software provider for the life of the product. OCPP allows you to mix and match EV charging points and software from different providers. If you're thinking of expanding your EV network but prefer the network capabilities from a different software provider then you will have the choice to combine various charge point manufactures with one software option.

GAROs OCPP Offerings

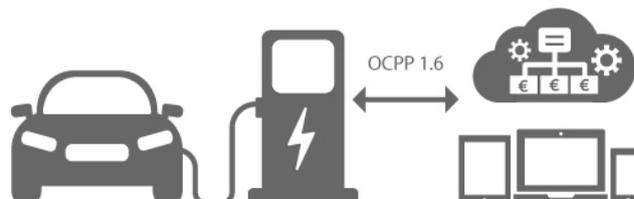

Garo offers a number of EV Charge points configured with OCPP technology and ready to integrate to a payment & monitoring software solution.

Garo also provides a complete OCPP back office solution.

Software Features

- Overview/Dashboards
- Network and Device Status
- Fault Management with intelligent Alerting strategies (SMS, email)
- Remote Management – control of devices, software update deployment
- Access Control and management through card (RFID), Smartphone App or SMS options
- Billing & Revenue generation – tariffs, payment systems and accounting

Contact us to discuss your requirements and to arrange a demo of our software solution.

WALL SOCKET WATERTIGHT 16A - 125A IP67

For wall mounting with cable connection from top & back

Connectable cable size:

16A: 1-2,5 mm² & Solid cable 1-4 mm²

32A: 2,5-10 mm² & Solid cable 2,5-10 mm²

63A: 6-16 mm² & Solid cable 6-25 mm²

125A: 5 x 50 mm² to terminal block

Flexible 16-50 mm² and solid cable 16-70 mm²

Degree of protection IP67

INTERLOCKED SOCKETS OUTLETS WATERTIGHT 16A - 125A IP67

Watertight socket for wall mounting with cable connection from top & bottom

Connectable cable size:

16A: 1-2,5 mm² and for solid cable 1-4 mm²

32A: 2,5-6 mm² and for solid cable 2,5-10 mm²

63A: 6-16 mm² and for solid cable 6-25 mm²

125A: 50 mm²

Degree of protection IP67

INTERLOCKED COMBINATION UNITS WATERTIGHT 16A - 125A IP67

Combination unit with socket outlet in watertight design.
 Cable connection possible from top and bottom.
 Can be equipped with components up to a max of 5-8 modules. (100 mm).
 Connectable cable size:

- 16A: 1-2,5 mm² and for solid cable 1-4 mm²
- 32A: 2,5-6 mm² and for solid cable 2,5-10 mm²
- 63A: 6-16 mm² and for solid cable 6-25 mm²
- 125A: 50 mm²

Degree of protection IP67.

Components sold separately.

GARO PRO SCENE

When there is a special requirement for top quality and invisibility e.g. at various events in the entertainment arena, there is a need for 'invisible' electricity. Cables, sockets and terminal boxes need to be discreet and not be seen.

GARO has a special range comprising the more commonly used plugs and couplers

Connectors are screw type simple connect as with the GARO Pro Range.

Degree of Protection:

IP44 16 - 32A

IP67 63 - 125 A

PRO SCENE PLUGS & COUPLERS Type 16A & 32A IP44

Connectable cable size:

16A: 1-2,5 mm²

32A: 2,5-6 mm²

Degree of Protection IP44

S 216-6 S - B

P 316 - 6 S - B

PRO SCENE PLUGS & COUPLERS 63A & 125A WATERTIGHT IP67

PLUGS & COUPLERS 63A and 125A

Connectable cable size:

63A: 6-16 mm²

125A: 16-50 mm²

Degree of protection IP67
